

June 11, 2007

Dear Mr. Sargent,

I thought I'd write you a quick note to tell you that I look forward to working with you and the Stripe A Zone crew for the upcoming Dallas North Tollroad Restripe project starting in a few weeks. If this experience is anything like the previous Western Extension Project on the George Bush Turnpike that we worked together on successfully, then we should make the end user customer satisfied and the north Texas motorist safer.

In preparation for the upcoming project, if there is anything that I can assist Stripe A Zone on, to make the transition from the pre-planning stage of the project into starting the work and through completion, please don't hesitate to ask.

Thanks for your good work in the past, and I look forward to helping you on your upcoming NTTA project.

Pat Murray
