

I want to thank your company and your field crews for your work at the Shamburger project. Your professional approach and open communication has made a very difficult project significantly less painful to deal with over the past 16 months.

Starting Monday, April 2<sup>nd</sup>, I will be heading to the ANDRES main office to work on a project we have been awarded in Denton.

I am still only a phone call away if you have any questions regarding final billing or outstanding issue. As of today, I show you have no outstanding change orders. Please direct all future field questions to Chris Wiley ([chris@andresconstruction.com](mailto:chris@andresconstruction.com)).

Call or email me if you have any additional questions or comments.

Thanks,

*Dub K. Ramsey*
